SEZIONE A-A  
SECTION A-A  
SCALA 1 : 3  
SCALE 1 : 3

REMARK:  
- TERMINAL BOX CAN BE ROTATED BY 90°-180°-270° RESPECT TO THE POSITION INDICATED AT DRAWING

NOTA:  
- LA COPRIMORSETTIERA PUO' ESSERE RUOTATA DI 90°-180°-270° RISPETTO ALLA POSIZIONE INDICATA

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |                         |  |                                                                                                                             |  |                              |  |
